

UNIVERSAL WINDSCREEN WIPER PULLER

TECHNICAL DATA

CODE	804708	WEIGHT	0,540 kg
------	--------	--------	----------

DESCRIPTION

This tool was designed to facilitate the removal of worn or damaged blades from the wiper arms without having to disassemble the bonnet and without risking to compromise glass or other parts of the car.

It features a perforated pressure screw with brass cap to safely hold the wiper arm. Its robust construction, with induction hardened pressure screw and moving guide, ensures removal without damaging the bodywork or wiper arm. The narrow base also adapts to reduced space conditions.
