

- Darkening helmet for hobby and semi-professional use. Fits for MMA, TIG and MIG-MAG welding. Fixed darkening DIN 11.
- It guarantees high performance in TIG (it darkens with currents lower than 5A) / MIG-MAG / MMA.
- Light and comfortable, it is fitted with a headgear adjustment system for perfect fit and protection.
- The LCD liquid crystal filter automatically darkens when the welding arc strikes and quickly returns to the transparent state when it is turned off, eliminating the need to raise and lower the mask at each work break and therefore allowing you to operate with your hands free.
- Solar cell powered.

DESCRIPTION

Automatic welding helmet ideal for MMA, MIG-MAG and TIG welding.

The LCD liquid crystal filter darkens automatically when the welding arc is running and quickly returns to its transparent status when the arc is switched off; this means the operator does not need to lower and raise his mask during operations and allows him to work always with both hands freely.

Features:

- light and comfortable to wear;
- fixed automatic darkening filter;
- solar cell powered;
- transparent glass protection filter.

OPTIONAL:

External glass protection 95X115.5mm 2 pcs cod.804312

Internal glass protection 41.5X 96mm 2 pcs cod.804411

Sweatband 2 pcs cod.804099.
