PRO START 2012 12V

cod. 829520

Battery-powered starter suitable for 12V starting of cars, vans, small boats, etc. When connected to the cigar-lighter outlet it maintains the voltage on all circuits during battery changes and is also a 12V power source for use in emergencies. Fit with a safety switch for starting, it does not damage the electronics of the vehicle and allows for a large number of starting operations before being recharged. It can be recharged using the special power supply, connected to the mains network, or using the cigar-lighter outlet of the vehicle (for the safeguard of the battery, charge for 12 hours before use, charge again after each use and every 3 months in any case). Characteristics: polarity inversion protection acoustic/luminous alarm * 2 emergency red reflective lights * high efficiency, rechargeable, portable led lamp with magnet * battery charging status led * 5V USB socket to recharge electronic devices (navigator, mobile phone, etc.) * 2 x 12V jack sockets * cable/adaptor holder pocket. Complete with: 230V AC 12V DC power adaptor, starting cables with clamps, jack cable.
