

DALLAS 300 ELECTRODE HOLDER 300A

- Electrode holder clamp for MMA welding.
- Maximum current 300A.
- Max cable diameter 25mm².
- In blister.

TECHNICAL DATA

CODE	802609	T04050	25 max mm ²
MAX CURRENT	300 A	WEIGHT	0,300 kg

DESCRIPTION

Professional electrode holder welding clamp for welding currents up to 300A. It can be installed on cables with section up to 25 mm². It is made using high conductivity materials to guarantee high performance; complete insulation of the structure ensures maximum protection and safety for the operator.
